

Sain Engineering Associates, Inc.

Position: Certified Professional Resource Efficiency and Energy Manager (CPREEM)

Sain Engineering Associates, Inc. (Sain) is seeking proven energy management professionals to work full-time on-site for multi-building medical campuses. **This position is located in Ohio with outlying clinics in Westin, FL and Las Vegas, NV.**

SEA is a small consulting engineering firm established in 1988 specializing in energy efficiency of existing facilities. Led by a consummate team of internationally acclaimed engineers, SEA challenges the brightest and most creative individuals in the energy services industry by providing an entrepreneurial environment that embraces initiative, innovation and results. No middle management. No bureaucracy. No company politics. Our charter consists of three simple and equally critical objectives: 1) Serve Our Clients, 2) Fulfill Our People, and 3) Manage Our Business. Visit www.saineng.com for more details.

Essential Duties:

This position is to specifically identify and implement energy conservation measures in a multispecialty, academic medical center with its main campus located in Cleveland, OH. Main campus consists of more than 50 buildings with an additional 150 buildings located throughout northeastern Ohio. Travel will be required in the Ohio area as well as to facilities in Las Vegas, NV and Westin, FL. The focus areas will be: energy / water / project feasibility analysis including building life cycle costing, measurement & verification of savings, alternative financing project facilitation, supply-side cost reduction, energy awareness promotion, O&M efficiency enhancement, and new technology utilization, especially involving renewable energy sources. This position reports to our Vice President of Operations

In this position, you will find excitement, growth and fulfillment. You'll interact daily with our network of Resource Efficiency Managers and key client(s) throughout the country. You'll have significant technical leadership from our award-winning team consisting of multiple PE's. You'll grow as we grow ... and we've grown 10-fold over the past 5 years! Even in our current economy, our firm is expanding rapidly with a very bright future ahead.

Requirements:

Qualification requirements are: U.S. citizenship, BSME/EE (or similar engineering degree), strong healthcare and institutional background in the area of energy conservation. Familiarity with the Department of Energy's Energy Star Portfolio Manager is a plus. Candidate should have strong HVAC experience and be familiar with smart metering and Automated Meter Reading programs. Strong communication skills with an ability for scientifically-based writing is desired. Demonstrated ability to achieve great energy efficiency results autonomously. Qualifications considered to be extra valuable are: Certified Energy Manager (CEM) certification, LEED certified and/or Professional Engineering (PE) license.

We offer:

SEA offers employees Blue Cross/Blue Shield Medical and Dental Insurance. SEA pays for one half of the premium with the employee being responsible for the other half. Company paid long and short term disability insurance, company paid life insurance up to one year salary after one year of employment with the option of voluntary life and vision insurance.

How to Apply:

If you are interested in this position and have the noted qualifications, please email your resume & income requirements (in strict confidence) immediately to Angela Sessions, our Human Resources Recruiter, angela.sessions@saineng.com or our Human Resources Manager, wendy.brown@saineng.com.
